Vineyard Notes

A wet start to the growing season set the vineyard up with a strong start. The hot beginning to summer created the perfect growing season across the region. With an abundance of blossom there was no intervention for bird pressure early on allowing for precision canopy and crop management. This gave the fruit optimal opportunity to achieve flavour before being hand harvested.

Production Notes

The fruit was hand harvested from our single site vineyard and pressed into stainless steel tank ready for a cool fermentation process. The juice was inoculated for fermentation to create a depth of flavour and texture within the wine. Post fermentation the wine was filtered and bottled early.

Food Pairing Notes

Raspberry and cream dark chocolate macarons
